MOSLAVAČKA GORA

Moslavačka gora srce je Moslavine i nositelj identiteta Moslavine kao jedne od regija u središnjoj Hrvatskoj. Nalazi se na granici Bjelovarsko-bilogorske i Sisačko-moslavačke županije i spada u staro ulegnuto gromadno gorje, paleoekološki nastanka, te je bogato rudnim bogatstvom. Njen najviši vrh je Humka (489 m n.v.). Pristupno je zemlju tri rijeke, Česma, Lonja i Ilova i kao takva ima izgled otoka, a što je vjerojatno i bila u pradavna vremena kada se ovdje prostiralo Panonsko more. Danas je Moslavačka gora nedovoljno iskorišten smaragd, pogotovo za razvoj raznih vidova aktivnog oblika turizma, posebice planinarstva i brdskog biciklizma. Upravo kao takvu, prepoznali su ju planinari HPD Garjevice Čazma, te na njevoj sjeverozapadnoj strani, označili preko 40 kilometara planinarskih staza koje obuhvaćaju najistaknutije točke na tom području, između njih izdvojeni vrhove Mjesec, Strma među, Vrh Čajene i Visoko brdo, zatim stvorili Jelenjad i Koluta grad, te lokalitete kao što su Kamenite kugle, kamenolom Pletersac i Samarica, te Kaluđerov grob. Žbog svojih nepreglednih šuma, nevjerojatne bogatstva flore i faune, svoje burne povijesti o kojoj svjedoče ostaci srednjovjekovnih utvrda, samostana i crkava, te svoje bogate kulturne baštine, ona je jedinstveno mjesto koje tek čeka da bude otkriveno.

MOSLAVAČKA GORA

Moslavačka gora is the heart and the identity bearer of Moslavina as one of the regions in central Croatia. It is located on the border of Bjelovar-Bilogora and Sisa-Moslava counties and belongs to the old sunken huge mountains of paleological origin. It is rich in mineral wealth and its highest peak is Humka (489 m above sea level). It is naturally bordered by three rivers, Česma, Lonja and Ilova. As such, it has the appearance of an island, which probably was the case in ancient times of the Panonian Sea. Today, Moslavačka gora is an underused gem, suitable for the development of various forms of active tourism, especially mountaineering and mountain biking. The mountaineers of the Croatian Mountaineering Society Garjevice Čazma have recognized it as such and marked over 40 kilometers of hiking trails on its northwest side, including the most prominent points in the area. Among them, we would like to highlight the peaks of Mjesec, Strma među, Vrh Čajene, and Visoko brdo, followed by the fortifications of Jelenjad and Koluta grad, and finally, localities such as Kamenite kugle, quarries of Pletersac and Samarica, and Kaluđerov grob. Thanks to its vast forests, incredible wealth of flora and fauna, its turbulent history witnessed by the remains of medieval forts, monasteries and churches, and its rich cultural heritage, it is a unique place just waiting to be discovered.

Garčić Town is one of the oldest medieval Croatian fort towns in northern Croatia, similar to Medvedgrad. It was built by Ban Stjepan Šubić in 1256. In 1295 the Paulist Fathers, who founded the monastery, came to Garčić Gor. In 1544, the Ottomans conquered and destroyed Garčić and the monastery with St. Mary's Church. In 1544 it was abandoned after the Ottoman invasions. Since then the ruins of Garčić Town have been preserved and it has become a favourite picnic area. OTKRIVITE GAREŠNICU I MOSLAVINU

Između prolazni i sadašnjosti, blagih brežuljaka i ravnice živi Garešnica, grad koji vas poziva na otkrivanje njegovih ljepota koje ga čine tako posebnim i privlačnim. Iz kojeg god smjera dođete, ovaj moslavački kraj grudi vam otkriva dobrodošlicu i prijateljska. Posjetite li naselja općine Hercegovac i Velike Trnovitice ili pak samu Garešnicu, odudite se iz vas ljepote koju pružaju samo ovako mala mjesta.

Ulice su uređene, gradska fontana blista, spomenici i parkovi održavaju, a zvonik crkve Petehoda Blažene Djevice Marije kao da pridržava moslavačko nebo. Sve te znamenitosti imaju svoje zanimljive priče, a svakako je posebno ona o imenu grada. Prema predaji ime Garešnica potječe od riječi gar, koji je ostajao nakon što bi utihnule vatre kojima su grančari u davna vremena javljali da se približavaju osvajačke vojske. Garešnica živi cijelu godinu. Tu su razne udruge i kulturno-umjetnička društva, a

održavaju se i brojne manifestacije kojima Garešničani čuvaju kulturu, gastronomiju i tradiciju moslavačkog kraja, ali i ono najbolje što ovaj grad ima. Kad već govorimo o najboljem, onda svakako moramo spomenuti jednog od najslovnijih hrvatskih i svjetskih šansonijera Ivo Robića ili Mr. Morgena, kako su ga oboljavali od milja nazivali. Njegove pjesme obješile su glazbeni povijest Hrvatske, ali i svijeta. A svjetski poznat bio je i Garešničani Mike Vučetić bez čije pomoći Mjesec mlađa nalka ne bi bio osvojen.

Ali se odličite za lov fotoaparatom ili mobitelom, tada smo sigurni kako će vam biljni i životinjski svijet ponuditi najljepše motive i nezaborane fotografije.

U Zelenim vrtovima Poliovlje možete vidjeti 62 zaštićene ptičje vrste i uživati u voljni čamcem po rijeci Ilovi. Nezaboravan doživljaj i trajne uspomene zajamčeni su, kao i želja da se uvijek iznova vratite u Garešnicu i njenoj okolicu.

DISCOVER GAREŠNICA AND MOSLAVINA

Between the past and the present, between gentle hills and plains lies Garešnica, a city that invites you to discover all the attractions that make it so special and beautiful. No matter where you came from, the Moslavina region offers you a feeling of welcome and friendship. If you visit the villages of the Hercegovac and Velika Trnovitica municipalities, or Garešnica itself, you will be delighted by the charm that only such small places can provide.

All these sights have their own interesting stories, and the tale behind the city's name is likewise a special one. According to legend, the name Garešnica comes from the word gar (meaning "soot"). In ancient times, border guards would light fires to signal the approach of invading armies, and after these fires had died down, the soot would be all that was left.

Garešnica is full of life year-round. There are various associations and cultural and artistic societies here. There are also numerous events that help the people of Garešnica preserve their culture and food, and the traditions of the Moslavina region, as well as preserving the very best of what this city has to offer.

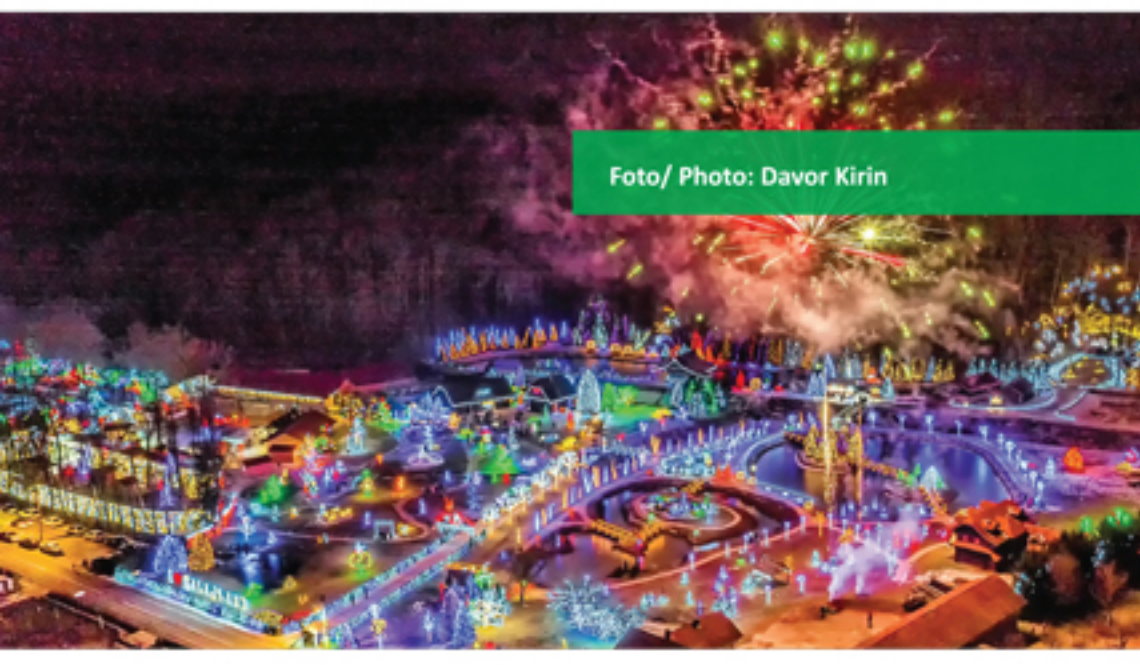

And speaking of the best, we certainly mustn't forget to mention one of the most famous chansonniers in Croatia,

and the world: Ivo Robić, or Mr. Morgen, as he was affectionately known by his fans. His songs left a mark on the musical history of both Croatia and the world. And Mike Vučetić, without whose help humanity might never have conquered the Moon, is another world-famous figure from Garešnica.

However, it is only when you set out on foot or by bike to explore the surroundings of Garešnica that you will better understand why this area is widely known for its rich hunting tourism. The local hunting grounds abound in high-value trophy specimens. And those who prefer fishing and calm waters can enjoy the landscaped ponds and natural waters, and try their angler's luck from a boat on Lake Skresovi.

If you settle on a different sort of hunting altogether – with a camera or mobile phone – then we are sure that the flora and fauna will make the most beautiful subjects, and help you to create unforgettable photos. In the Green Gardens of Poliovlje you can see 62 protected bird species and enjoy a boat ride on the river Ilova. An unforgettable experience and lasting memories are guaranteed, as well as the desire to return to Garešnica and its surroundings.

Za odvajanje prirodne baštine i razvoj turizma u Čazmanskom kraju važan je Projekt „Natura 2000“. U istraživanju ovoga područja pomoći će vam edukativne ploče postavljene na ulazima u Regionalni park Moslavačka gora, govala lokalitet Pletersac – jezgra Moslavačke gore, imanje Salaj te odmoriste i vidikovac Sveti Vidi.

Ne zaboravite posjetiti Galeriju Matešini u Bojani koja nudi mnogo informacija o kulturi i prošlosti ovog kraja. Iako je poznata kao zimski atrakcija, bez obira na to u koje godišnje doba dolazite, pozivamo vas da posjetite Grabovica odnose imanje Salaj gdje možete uživati u prelijepoj eksterijeru i zanimljivim sadržajima. ČAZMA

Visit Čazma and walk through its centre. Visit the beautiful Church of St. Mary Magdalene, with its facade dominated by a rose window, and its two slender bell towers that seem to hold up the Moslavina sky. Close by the church is Gradina, where there are the remains of a fort. Today there is a memorial ossuary in this, which is decorated with a mosaic created by Edo Murtić.

If you want to learn more about the traditions and history of Čazma, visit the Čazma City Museum. Then take a break, have a coffee or another favourite beverage, and head off to explore the surroundings of this small town.

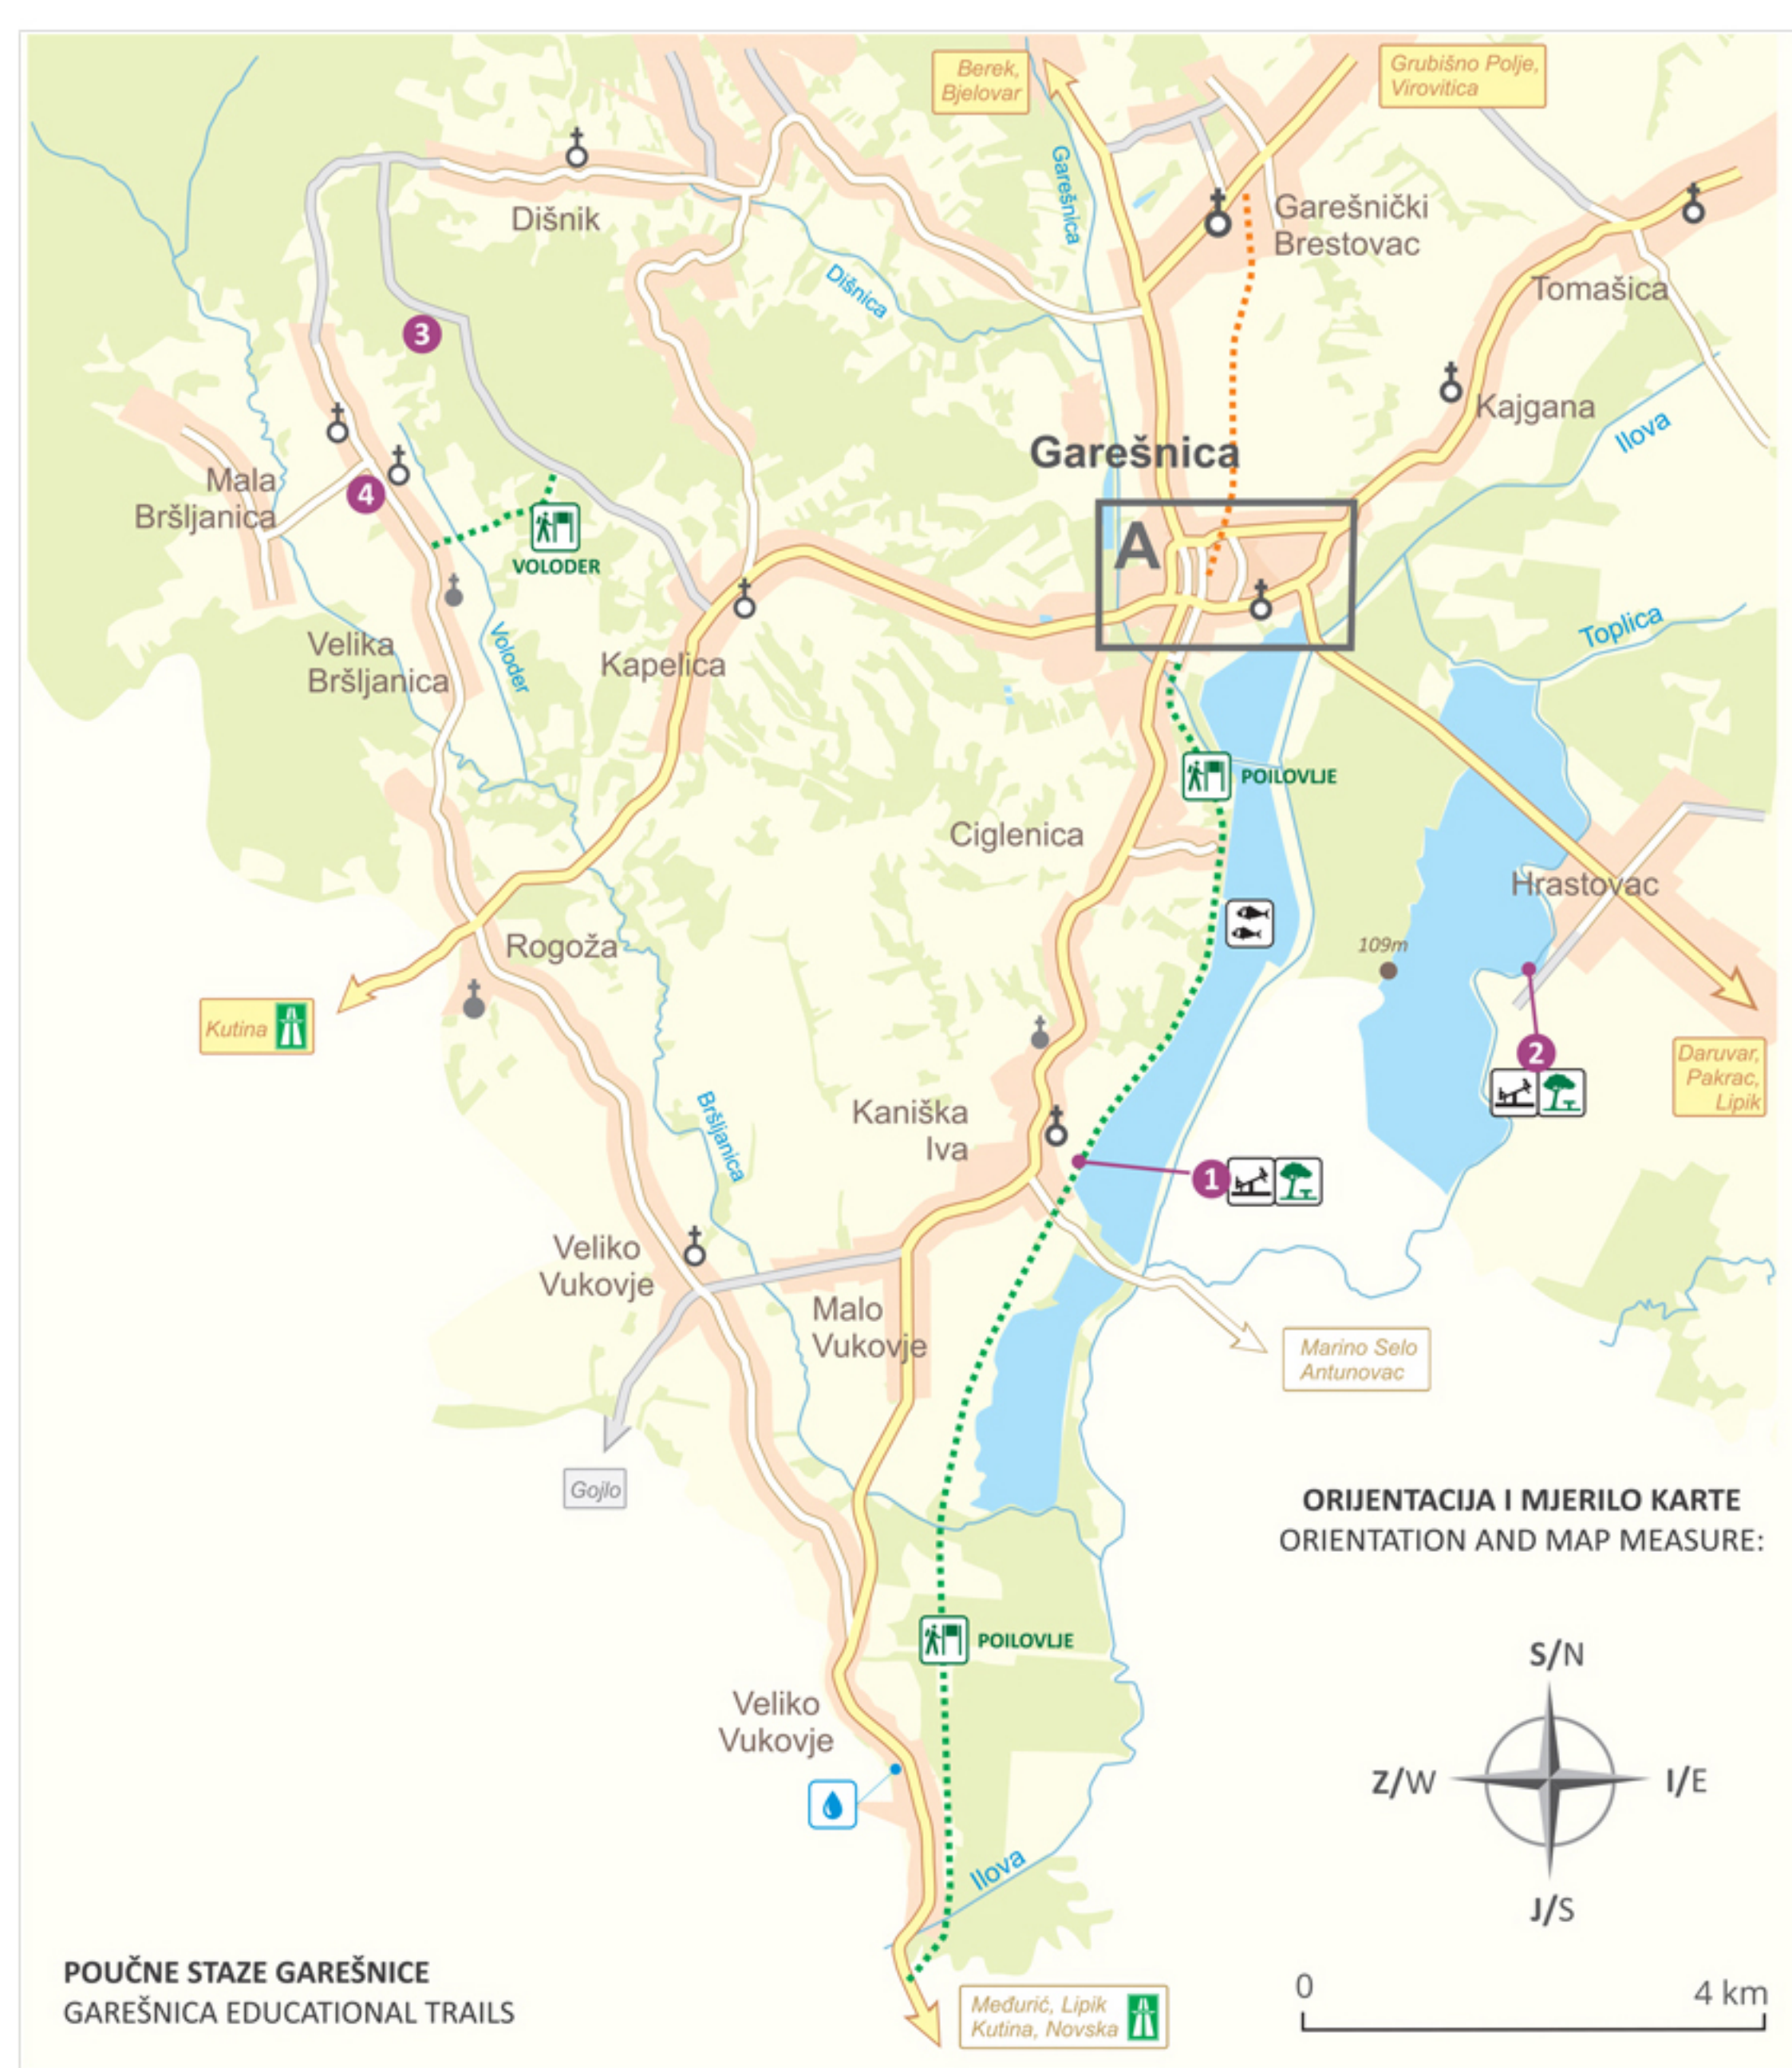

The fish farm at Siličani is perfect for lovers of nature and can fishing. Here you can see a great many wetland birds, several species of herons, swans, coots, wild ducks, and storks, which have numerous nests nearby. We suggest that you stop at a restaurant or family farm, where you can try the traditional sausage, called the Moslavina brašnjača, enjoy a sweet treat of the finest cakes and desserts, and

raise a glass of quality wine. The "Natura 2000" Project is important for the preservation of the Čazma region's natural heritage and the development of tourism.

Visitor information boards placed at the entrances to the Moslavačka Gora Regional Park, the Pletersac geological site – the heart of Moslavačka Gora, the Salaj family estate, and the Sveti Vidi rest area and lookout point will help you explore this area.

Don't forget to visit the Matešini Gallery in Bojana, which offers a wealth of information about the culture and history of this region.

It's best known as a winter attraction, but no matter what time of year you come, we invite you to visit Grabovica, more specifically the Salaj family estate, where you can enjoy the beautiful outdoor areas and interesting activities. If you come during the holidays, then the magical Christmas lights and everything around you will take you back to childhood, and offer your little ones an unforgettable experience.
