

DARUVAR – ZAPADNI DIO PAPUKA PLANINARSKO DRUŠTVO "PETROV VRH" I PLANINARSKI DOM "PETROV VRH"

HR

Grad koji je svoj status lječilišta stekao zahvaljujući termalnim vrelima, urastao u autohtono zelenilo obronaka Papuka, u samonikle bukve i hrastove šume čiji se rubovi spuštaju nadomak slikovite povijesne jezgre i vežu s krošnjama drvoreda i parkova. Malo koje mjesto u Hrvatskoj može se kao Daruvar podičiti s tri parkovne površine u samom „srcu“ grada; perivoj uz Dvorac Janković, lječilišni perivoj Julijev park i Rimska park-šuma čije se zelenilo pruža prema bjelogoričnim i crnogoričnim šumama Zapadnog dijela Papuka. Jedan od najistaknutijih vrhova Zapadnog Papuka je Petrov vrh (614m).

Obrastao je šumom, a sa sjeverne strane livadom koja se pruža sve do planinarskog doma „Petrov vrh“ (547 m). Prostor ispred doma opremljen je drvenim stolovima, klupama i pecarama, na raspolaganju svim ljubiteljima boravka na otvorenom u svako godišnje doba. Planinarsko društvo „Petrov vrh“ je društvo duge tradicije. Osnovano je sad već davne 1932. godine, a u dugogodišnjoj povijesti imalo je uspješna i manje uspješna razdoblja. Posljednjih godina društvo doživljava novi uzlet, trenutno ima više od 400 članova, a rad Društva odvija se kroz više sekcija: gospodarske, za izlete i rad s mladima, obiteljske, visokogorske, markacističke.

DARUVAR - WESTERN PART OF PAPUK MOUNTAINEERING ASSOCIATION "PETROV VRH" AND MOUNTAIN LODGE "PETROV VRH"

EN

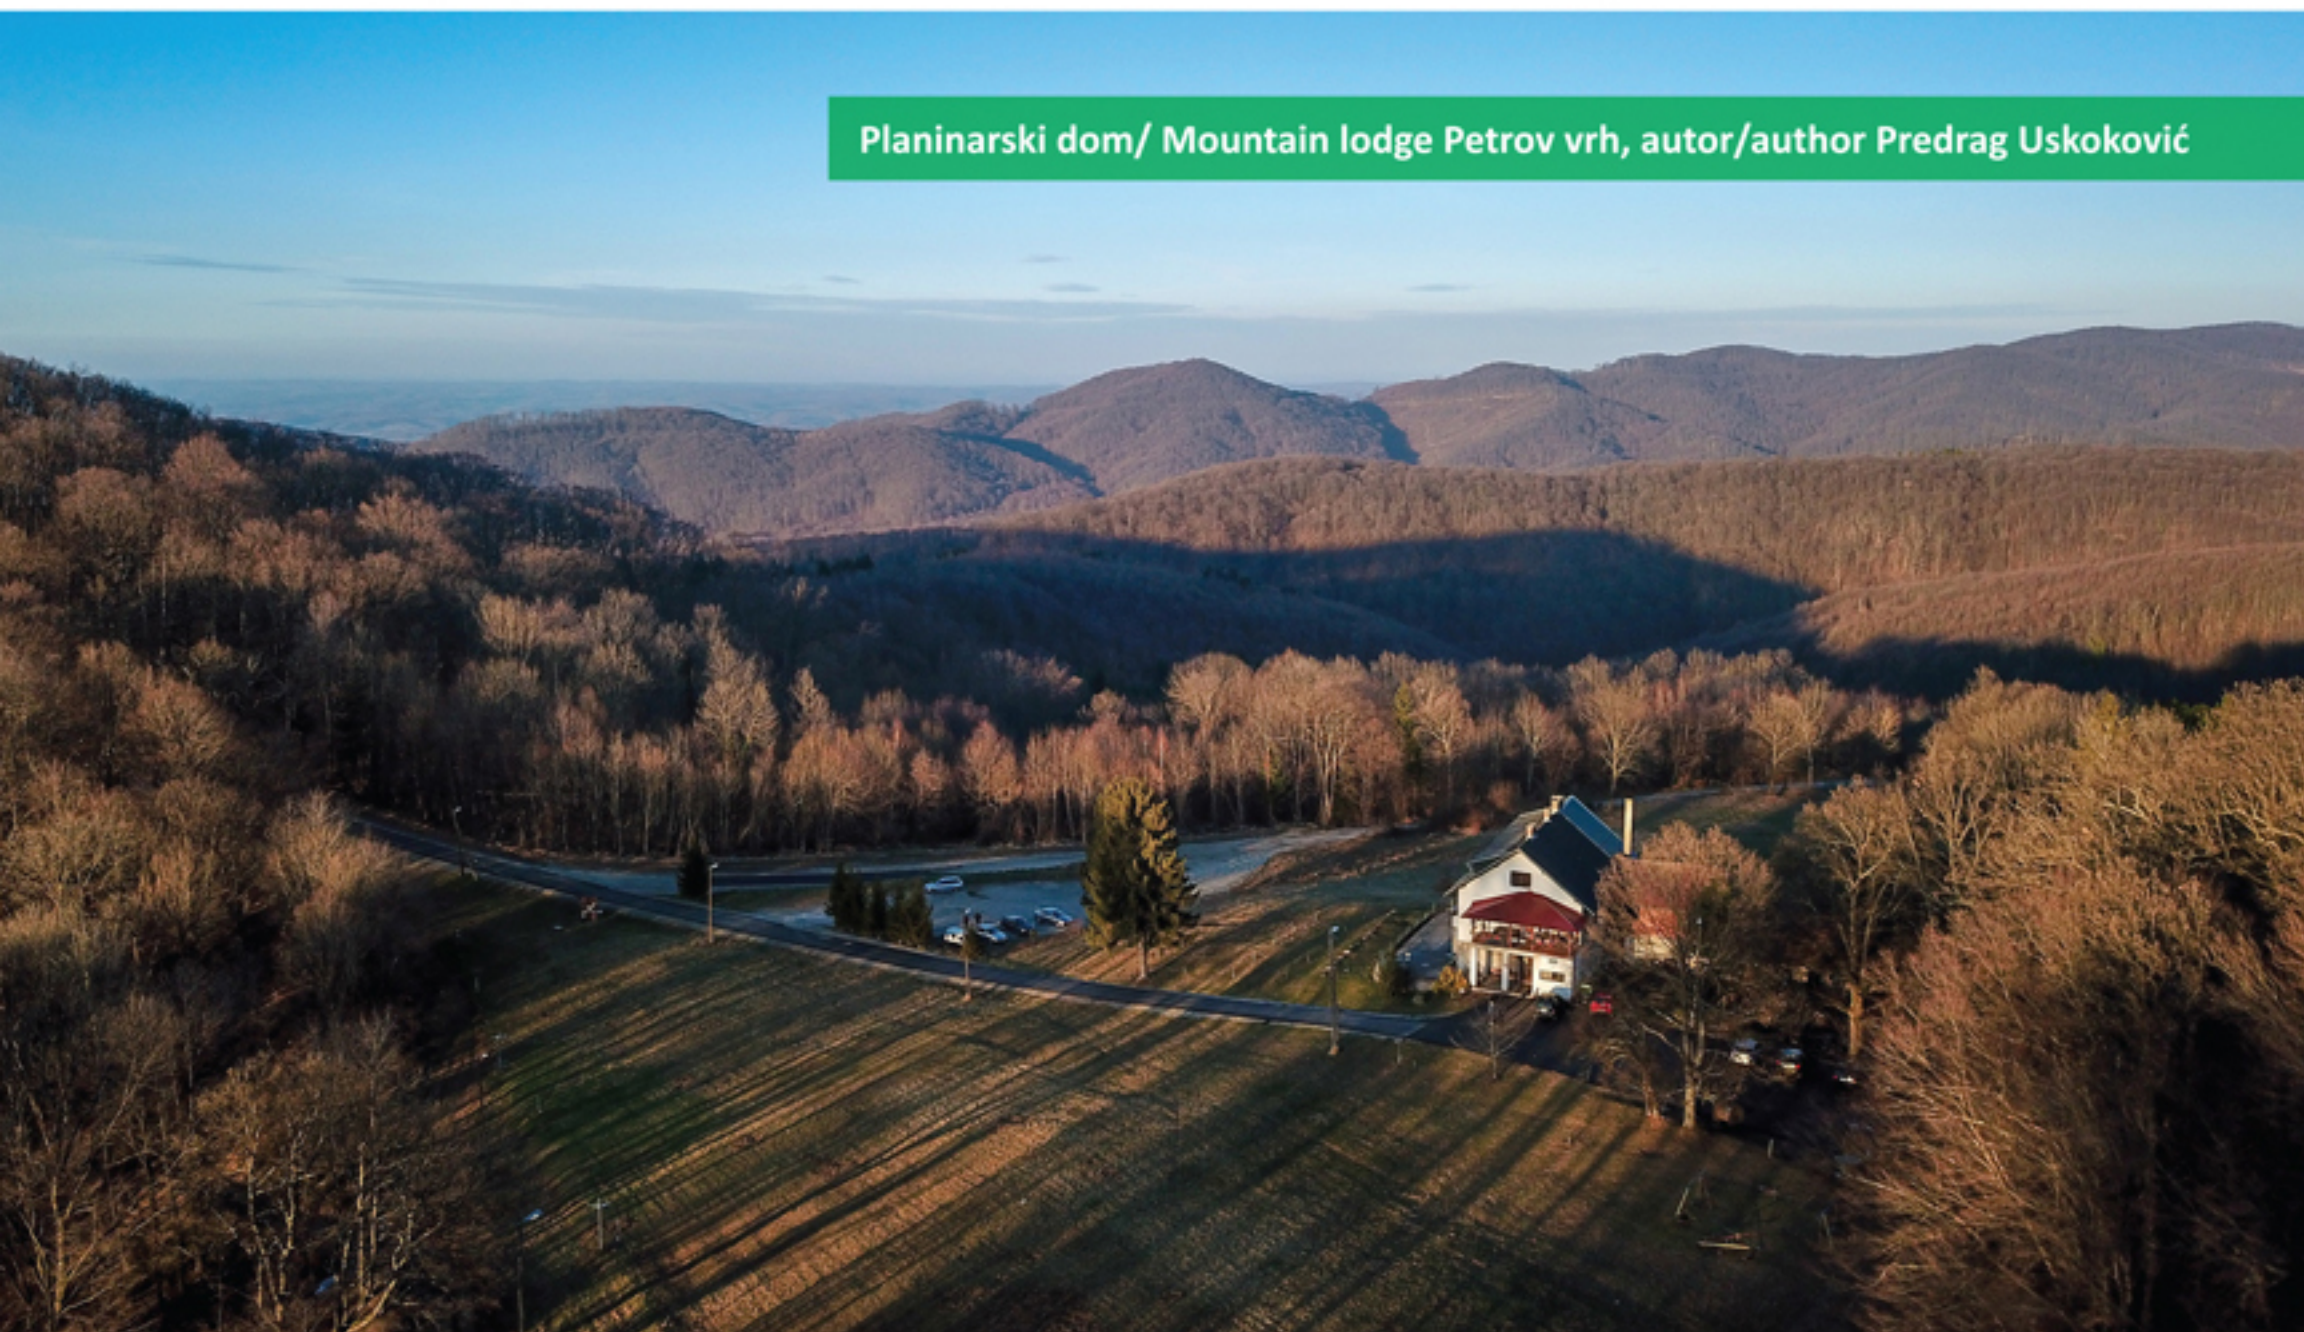

The city, which gained its status as a health resort thanks to thermal springs, has grown into the indigenous greenery of the slopes of Papuk, into the sprouted beech and oak forests whose edges descend near the picturesque historic center and connect with the canopy of tree alley and parks.

Few places in Croatia, like Daruvar, can be proud of three park areas in the very "heart" of the city; the park next to the Janković Castle, the health-resort park Julijev park and the Roman park-forest whose greenery extends towards the deciduous and coniferous forests of the western part of Papuk.

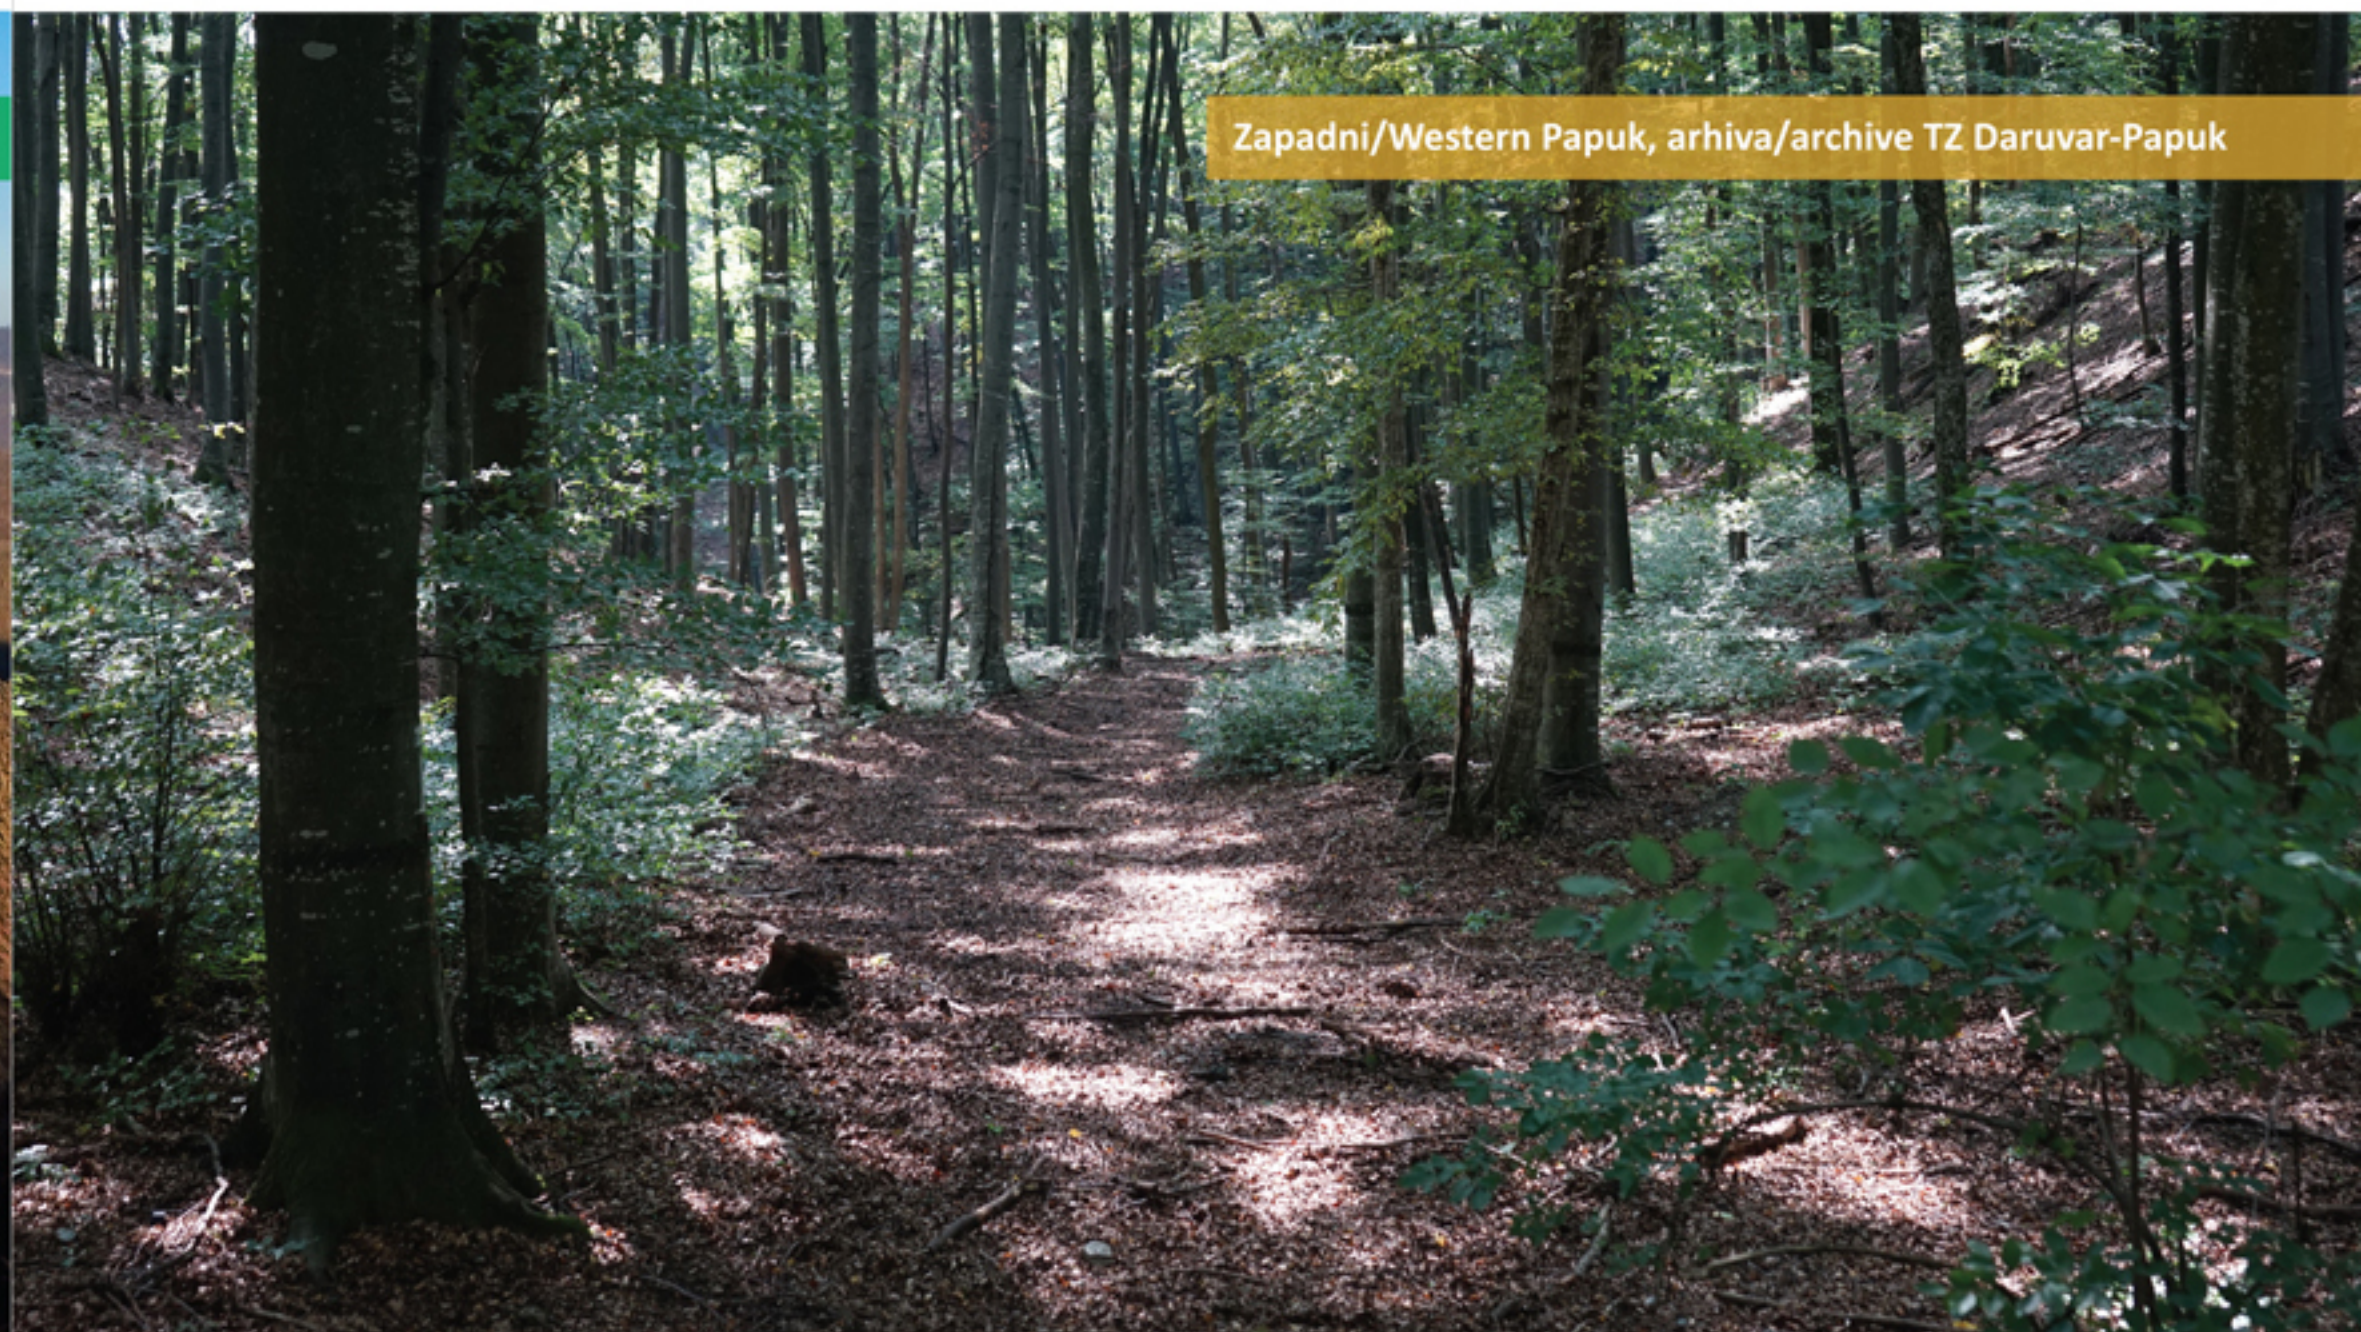

One of the most prominent peaks of Western Papuk is Petrov vrh (614m). It is overgrown with forest, and at the north side with a meadow that stretches all the way to the mountain lodge "Petrov vrh" (547 m). The area in front of the lodge is equipped with wooden tables, benches and barbecues, available to the all lovers of outdoor staying in all seasons.

The mountaineering association "Petrov vrh" is a association with a long tradition. It was founded back in 1932, and in its long history there have been successful and less successful periods.

Osim toga društvo brine i o školovanju svojih članova pa je održano nekoliko planinarskih škola kako za odrasle, tako i djecu, a dio članova uključio se u rad Stanice HGSS-a Bjelovar, što je rezultiralo i osnutkom ispostave u Daruvaru.

Do planinarskog doma „Petrov vrh“ može se doći novouređenom asfaltiranom cestom (9 km) ili pješice za 2:30 h markiranom pješačkom stazom od lječilišnog hotela Termal***. Ishodište je brojnih planinarskih staza po području Zapadnog Papuka (do Vranog Kamena, Crnog vrha, Velikog Javornika), a zainteresirani mogu obići i srednjovjekovne gradine Dobru kuću i Stupčanicu. Ono što je posebno značajno da je upravo na Petrovom vrhu početak i kraj Slavanskog planinarskog puta, najstarije planinarske

obilaznice koja je otvorena 1957. godine. Put je dug oko 320 km, a dionica za koju je zaduženo PD Petrov vrh proteže se od Novog Zvečeva, preko Crnog vrha, Petrovog vrha do Velikog Javornika gdje prelazi na područje pakračkih planinara.

Napomena: Molimo Vas da imate na umu da se stanje planinarskih puteva stalno mijenja na terenu, stoga budite oprezni. Kartu koristite na vlastitu odgovornost.

In recent years, the association is experiencing a new rising, currently has more than 400 members, and the work of the association takes place through several sections: economic, for trips and work with young people, family, high-mountain, markacistic. In addition, the association takes care of the education of its members, so several mountaineering schools were held for both adults and children, and some members joined the work of the HGSS Bjelovar Station, which resulted in the establishment of a branch office in Daruvar. The mountain lodge "Petrov vrh" can be reached by a newly renovated asphalt road (9 km) or on foot in 2:30 hours by a marked hiking trail from the Hotel Termal ***.

It is the starting point of numerous hiking trails in the area of Western Papuk (to Vrani Kamen, Crni vrh, Veliki Javornik), and those interested can also visit the

medieval forts Dobra kuća and Stupčanica. What is especially significant is that the beginning and end of the Slavonian mountain road, the oldest mountain bypass that was opened in 1957, is right on Petrov vrh. The road is about 320 km long, and the section for which MA Petrov vrh is in charge stretches from Novo Zvečevo, through Crni vrh, Petrov vrh to Veliki Javornik, where it passes into the area of Pakrac mountaineers.
